

Portal Solutions

Deploying a portal for your enterprise can help you streamline processes and transactions, increase employee productivity and strengthen relationships with customers and partners. Emerio has helped many organisations achieve this using portal technologies like Microsoft Office, MOSS 2007 and SharePoint 2010.

Our Value Propositions

Driven by your business objectives and key performance indicators, we strive for continuous improvement of your systems. Our focus is:

- Great customer service with low cost of ownership and uncompromised quality.
- Full-range consulting for all phases starting with business strategy followed by IT strategy, IT landscape modelling and all issues around implementation.
- Market-leading support offered in close co-operation with our technology partners, ensuring reliable system operations over a long period of time.

The Emerio Edge

Emerio has trained and certified consultants who can help your organisation with both technical and business aspects of implementing SharePoint within your organisation.

Emerio has implemented SharePoint solutions in many enterprises, resulting in long terms benefits like:

- **Better team collaboration**
- **Document and process management**
- **Information rights management**
- **Integrated workspaces**
